Safety Tips For Shopping During The Holiday Season

provided by Argus Insurance, A High Point Bank Company

Tip #1: Beware of paper on the back window of your vehicle. This is a new scheme for carjackers. When you look into the rear view mirror to back out of your parking space, you notice a piece of paper stuck to the middle of the rear window. So, you shift into Park, unlock your doors, and jump out of your car to remove that paper (or whatever it is) that is obstructing your view. When you reach the back of your car that is when the carjackers appear out of nowhere, jump into your car and take off. Ladies, I bet your purse is still in the car. So now the carjacker has your car, your home address, your money, and your keys. Your home and your whole identity are now compromised! If this happens to you, just drive away and remove the paper later.

Tip #2: If you have the option in a parking lot, always park so that you can pull forward rather than backing out of your parking space. Determining who is at fault in a parking lot bump-up is almost impossible and generally results in everyone having to fix their own damage, meaning you have to pay your deductible to repair your car. Going forward these are easier to avoid.

Tip #3: When you are forced to park in a small space between two other cars, get as far away from the other car's driver-side doors as practical. There is always a driver who will be getting into a car. There may not be anyone opening that passenger-side door. That reduces your chance of getting a parking lot ding.

Have a Safe and Happy Holiday!
